B. WHAT WE KNOW

NECROSOCIETY - INTERNAL

HIS ACCOUNT. He says he was banished to death for 718 years and came back by clawing through to this side. The number in his name is the length of the sentence. He came back already badly decomposed.

THE BODY. He says he cannot die but does not stop decomposing. He eats the dead to replace the tissue he loses and to ease the pain of it. When a part of him fails he takes the same part from a body in a cemetery. Without regular feeding the decay speeds up. He believes his escape from death makes him immune to it, and admits he does not know whether he can die naturally.

THE ESTIMATE. About 40% of his body is his own and 60% has been taken from others. That figure is the services', not ours.

WHERE. A network of catacombs under a city cemetery. Several disappearances are put down to him. Victims have been found with single parts removed, cleanly, matching what he needed at the time.

THE MIND. He has started to lose track of which memories are his and which came with what he ate.
